

25	MALTO Consulting	www.vialto.hu	ICT	<p>Based on our experiences and valuable know-how in project management and institutional development during the E1 pre- and post-accession decade of the Eastern Enlargement (E125), as well as geopolitical, cultural, social and economic similarities, VIALTO is mainly targeting Moldova, former Yugoslav states, Albania, Moldova and Turkey. The Republic of Moldova in particular is one of the emerging markets where we can successfully apply our contacts and knowledge of Romanian language in offering our strategic international partners a range of services in its international project management. These are ranging from proposal preparation to the project monitoring, project facilitation, partnership and client management, project and financial management and even overall backstopping throughout the project.</p>	<p>We are currently pursuing several E1 and M8 financed project opportunities, having four of our Proposals under evaluation. We have built international multi-disciplinary consortia for various Consulting services for clients in the Public Administration and Private sphere in RM, including the Mobiasubanca OTP bank.</p>	Partners in ICT and ID Consulting	Daniel KAPUSY	Business Development Adviser Vialto Consulting	Aron NEMES	Managing Partner Vialto	agree

Sandra LAKATOS PALME DR NEMES	Vice President of the Archenergy Cluster			agree	No
4. Aurora Technologies	https://auroratech.ro/en/	Smart city solutions	Aurora Technologies is the developer of smart city solutions, camera center independent traffic plate recognition (LPR) and video analytics software implementing AI for parking, traffic management, security/safety systems. All Aurora video analytics software connect and process the footage of any IP camera and can also work with existing camera systems. Our software solutions are built for easy integration; they connect to cameras in a matter of minutes and offer advanced detection and track events, analyzing the received information against business systems through internet connection. Our main product, the Aurora Recognition Unit is a plug and play license plate recognition application with a modular built-up. Additional modules include AIPI-based access control, vehicle make and model recognition, customized parking improvement solutions and traffic congestion analytics.	There are no ongoing projects on Moldova. Currently we are focusing on expansion in Europe (project finance and surveillance system (including traffic surveillance, license plate recognition, vehicle make and model recognition)) in a city at the business-to-business level.	Traffic, parking and security system integrators supplying full solutions in their respective sectors, parking management companies, highway maintenance and safety providers, Road tolling companies, Traffic enforcement agencies, local enforcement camera manufacturers.	Matei KISS-GYORGY	CEO			agree	
5. Baboia Tetra KH	WWW.baboiatetra.com	Agricultural and food industry	It has a 50 year history of poultry farming. One of four hybrids breeding companies in the world. Currently, the Tetra hybrids in Baboia are leading 50 countries worldwide. In Moldova, for example, it breeds about 20% of the hybrid hen market.	We would like to continue to be the market leader in the hybrid hen market.	Eg. producing enterprises	György BUZA	Majority owner			agree	
6. BONAFARM ZRT	www.bonafarm.hu	Agricultural and food industry	BONAFARM Group Each and every product at Bonafarm has its own story written by the company group from the forward right through to the conclusion. The various chapters are added by our companies, from our own grown ingredients and high quality production technology to the intensive care of our experienced employees. In addition to this modern approach, each and every part of the story represents the centuries-old tradition of our predecessors. This is how every Bonafarm story has a happy ending, when top quality food and drink is served at the table. The stories from the soil to the table The Bonafarm Group was established to ensure the true stories of the best Hungarian food production from the growth to the table. This is a tale full of challenges and we celebrate the birth of each young calf and the germination of each grain of wheat so our part success because the excellence of our food products is based on attention to detail and loving care. Each and every product at Bonafarm has its own story written by the company group from the forward right through to the conclusion. The various chapters are added by our companies, from our own grown ingredients and high quality production technology to the intensive care of our experienced employees. In addition to this modern approach, each and every part of the story represents the centuries-old tradition of our predecessors. This is how every Bonafarm story has a happy ending, when top quality food and drink is served at the table. Our starting point and objective of the Bonafarm Group is to build on the cooperation and development of the various member companies to become one of the key players in the Central and Eastern European region. Our determination is proven by the members included in our production. We cultivate land with a total area of close to 35,000 hectares. Our fish oil yields top quality crops that we use either as fodder to feed our livestock or as raw material directly for our food products. We have over 6,000 cattle, and close 100,000 fattening pigs processed each year by meat processing industry. We produce over 4 million tonnes of eggs, 220 thousand tonnes of fish, 200 thousand tonnes of poultry fish. Organisation of the Bonafarm Group essentially runs along two lines. On the one hand, our agricultural companies produce the crop needed to feed our livestock and the industrial crops for sale, as well as feeding our farmed animals. On the other hand, our own raw materials are added to high quality meat and processed into ready to eat and ready to cook meat and animal products. The three food processing and the four agricultural companies of the Bonafarm Group employ a total of 6,000 "story writers". The five agricultural companies owned Agricultural Co., Bonyi Co., Dabas Co., Fehérvári and Bonafarm-Habsburg-Turkmen Ltd. produce the majority of the impossible raw materials. Our three well known food processing companies, Pék-Sárga Co., Sós-Músi Co. and Csányi-Prémium Co., use their raw materials to produce popular products. You can read more about the actions of the Bonafarm Group on www.bonafarm.hu.	Sales of Fresh and Frozen pork meat.	Meat processor Meat importer Food distribution Food wholesale	Rudolf FEJVER	Sales Director - pork meat	Maria POLCS	Export manager - pork meat	agree	
7. BONTOR Construction Company	http://bontor.com/business.site	Construction and engineering	BONTOR Construction Company provides safe and timely demolition and excavation work to every client, utilizing state of the art equipment and superior work practices.
