

Uganda National Chamber of  
Commerce & Industry  
*Enhancing Business Opportunity*

28<sup>th</sup> July, 2022

President  
Chamber of Commerce and Industry of the Rep. of Moldova.

Dear Sir/Madam,

**INVITATION TO PARTICIPATE IN THE EAST AFRICA FOOD SECURITY SYMPOSIUM & EXPO, 14<sup>TH</sup> - 16<sup>TH</sup> OCTOBER 2022.**

Receive fraternal greetings from Uganda National Chamber of Commerce & Industry!

Uganda National Chamber of Commerce & Industry in partnership with Climate Change Action East Africa, a local Non-Governmental Organization with expertise of raising awareness about Climate Change Mitigation and Adaptation through sharing information about localized, practical solutions to the adverse effects of abnormal variations of the ecosystem to enable communities to carry out farming effectively thus food security, are organizing The East Africa Food Security Symposium & Expo 2022.

The East Africa Food Security Symposium & Expo will be an annual rotational event in all the eleven (11) East African Countries and this year's edition will be conducted from 14<sup>th</sup>-16<sup>th</sup> October 2022 at Kampala-Uganda under the theme: **“Linking Climate Change to Food Security, Nutrition and Wellbeing”** aimed at bringing stakeholders to raise awareness about food security amongst Member States in the region.

The event will be graced with more than three thousand (3,000) invited international and local participants and exhibitors from the 11 East African countries and other countries; with participants and exhibitors in the various categories of policy makers, researchers, climatologists, innovators, civil society, private sector, non-governmental organizations and development partners, aimed at equipping the participants with knowledge, skills, technologies and financing options for securing their future through adapting and mitigating climate change to guarantee food security, nutrition and wellbeing.

The symposium and expo will focus on five interlinking sub-themes of;- empowering farmers and consumer organizations and modernizing supply chain, the future of finance models to leverage public and private sector investment in East Africa, fostering, enabling policies and practices relevant to today's needs, climate-resilient practices and technologies, climate crisis, migration and displacement with an overarching goal of procuring and emphasizing the importance of understanding mitigation and adaptations in our daily lives. To minimize the impact of adverse effects of abnormal variations of the climate by promoting climate smart agriculture to enhance food security with the overall goal of setting up State-of-the-Art Drought Mitigation Center.
